OEHLBACH I-CONNECT PLUGX

Testresult: Outstanding

Oehlbach® i-Connect PlugX

**OUTSTANDING**

Video 07/2014

**Mobile on TV**

The optimum method of connecting a smartphone to a TV is provided by the Mobile High Definition Link (MHL). It connects the Micro USB output on a mobile phone to the HDMI input on a TV. This enables screen mirroring and sound reproduction.

In addition, smartphone menus can also be operated via the TV's remote control. Both devices must support MHL. This cable from Oehlbach worked perfectly in all of our tests.
