Oehlbach® Red Opto Star
Troublefree transmission

Recommended by av-magazin 01/2012

Tip: Red Opto Star digital cable

In this test, the Red Opto Star provides troublefree transmission of digital audio signals. Because of the low refraction index within the cable, a very high luminous efficacy is achieved. The flexible soft rubber sheathing simplifies installation. The stable Toslink connector ensures a firm seat and reliable connection. The Red Opto Star thus guarantees lossless transmission of stereophonic and multi-channel digital audio data.

Brand: Oehlbach

Model: Red Opto Star (Toslink to Toslink [jack])

Features: Gold-plated plug contacts (24 carat) incl. Toslink adapter to fiber-optic cable jack

Lengths: 0,5 | 1,0 | 1,5 | 2,0 | 4,0 | 5,0 | 6,0 | 8,0 | 10,0 | 15 metre
