NF AUDIO RCA CABLE BEAT!

Excellently made audio cinch cable in a coaxial design! This high-quality LF cable has been designed mainly to connect hi-fi and home-cinema systems – eg. for connecting CD players to amplifiers! The effective shielding means that it is almost resistant to any sheath currents and interference. Oxygen-free copper (OFC) has been used for the inner conductor to achieve extremely harmonious and transparent sound characteristics. The plug contacts plated with 24-carat gold are responsible for ensuring perfect contact reliability.
