STATE OF THE ART

DIGITAL AUDIO RCA CABLE BLACK CONNECTION DIGITAL

Very exclusive digital-electrical cinch cable with a constant impedance of 75 ohm. The inner conductor's revolutionary design ensures previously unheard of low intrinsic resistances with extremely high levels of purity. Even the monocrystalline transitions in the cast HPOCC are filled with pure silver during the „Silver Gap HPOCC“ production process. This produces an almost seamless structure in the conductor and creates the ideal electrical conditions for the transmission of signals. Full-metal silicone-pin screw plugs plated with 24-carat gold connect this valuable inner conductor practically resistance-free to any type of audio component in home hi-fi or home-cinema systems. The high technical requirements are also satisfied by the cable's exterior: The plugs' exteriors have been fitted with genuine leather and are really pleasant to handle.

4X SHIELDING

HPOCC® INSIDE

24ct GOLD

FULL METAL

75Ω

100% CONTACT

30 YEAR GUARANTEE

MADE IN GERMANY

Cinch

SIGNAL DIRECTION
 Bi-Directional

cable material	Robust plastic sheathing, fabric sheath
Connector material	High-quality fabric sheathing
Characteristic impedance	Eliminates high-frequency irradiation
Bending radius	60 mm
content	1 piece
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
cable geometry	Round
Shielding	Quadruple shielding
Shielding construction	2 x aluminium foil + 2 x copper braiding
Features	24kt gold plated contacts , 100% contact reliability, 30 years warranty, Made in Germany
Cable diameter	7,5 mm
