5.1 LF AUDIO RCA PHONO CABLE

BLUE MAGIC 5.1

Really well-made audio cinch cable, e.g. for connecting SACD players and DVD audio players to AV receivers. The effective multiple shielding distinguishes this particularly high-quality 5.1 audio cable from normal LF cables. Oxygen-free copper (OFC) has been used for the inner conductors, which, in conjunction with the shielding, delivers extremely transparent and stable signal transmission. Colour-coded full-metal plugs with 24-carat gold-plated contacts are responsible for creating the perfectly gripping connection.
