

COMPONENT VIDEO CABLE - RCA

COMPONENT VI

High-quality analogue video-component cable (YUV) with cinch plugs. The cable is characterized by the particularly well-made cinch plugs and the very complex multiple shielding. The 24-carat gold-plated plug contacts and the entire cable's high resistance to wear mean that outstandingly reliable contacts and durability are guaranteed. The inner conductors made from highly pure oxygen-free copper in conjunction with the effective shielding ensure that signals are transmitted without loss and without annoying interference. This Oehlbach cable is usually used to create the perfect link between TVs and AV receivers.

MULTIPLE SHIELDING	OFC <small>OXYGEN-FREE COPPER</small>	24ct GOLD	FULL METAL	75Ω	30 YEAR GUARANTEE
