SIGNAL DIRECTION

8K - ULTRA HIGH-SPEED HDMI® CABLE

EASY CONNECT UHD

The 8K Ultra High Speed HDMI cable supports the high-quality entry into the new home entertainment and gaming generation and delivers with data rates of up to 48 Gbit/s the full bandwidth of the data range of current 8K (up to 60 Hz) and 4K (up to 120 Hz) Ultra HD signals. The 3D sound formats Dolby Atmos and DTS are transported lossless by the Easy Connect UHD to a connected AV device. The solid connectors at a 40° angle (the sides are angled mirror-inverted, see photo) guarantee maximum signal stability, the inner conductor is made of oxygen-free copper (OFC) and the cable is triple shielded and thus offers high-quality protection against interference signals.
