

HIGH END SPEAKER CABLE SET WITH CABLE LUG

FUSION TWO

STEREO

This extra-class loudspeaker cable preassembled with „Fusion“ lugs continues to set standards for high-fidelity sound. This cable has been specially designed with hi-fi purists in mind and it offers a sophisticated technical concept in addition to a particularly discrete product design. The material used for the inner conductor consists of high-purity, oxygen-free HPOCC copper. Monocrystalline-like transitions are achieved within the copper thanks to the unique HPOCC manufacturing process applied. The cable has been structured to rigorously separate the treble and bass transmission routes and thus achieves a unique quality of transmission. Each of the twelve individually insulated copper wires has been wrapped in wafer-thin copper foil. This unique concept in cable construction requires a tremendous degree of precision in the manufacturing process with the main aim of achieving a time delay correction between the high and low frequencies. The low frequencies prefer the more solid inner conductor while the high frequencies tend to move along the surface at greater speeds. The combination of the inner conductor and foil results in an unprecedented natural and dynamic sound.

2 x cable shoe

SIGNAL DIRECTION

4X SHIELDING

HPOCC® INSIDE

FULL METAL

30 YEAR GUARANTEE

MADE IN GERMANY

24ct GOLD

Connector material	solid metal plug
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
cable geometry	Round
Features	Made in Germany, 24kt gold plated contacts , Stereo speaker cable , 30 years warranty, Rigorous separation of signal routes
cable material	fabric sheath

item no.	Length	Color	EAN	MSRP (19%)
110601	2 m	Black	4003635116012	719.00 €
