## TESTER FOR HDMI® CABLES

### HS TESTER

TWO-PIECE HDMI® CABLE TESTER

The inner conductors in HDMI® cables can be quickly and reliably tested with this two-part HDMI® cable tester. The cable is tested for electrical continuity and the results for all the conductors' electric functions are indicated by control lamps. Cables that have already been installed may also be easily and conveniently tested as the tester has been separated into a transmitter and a receiver.

**24ct  
GOLD**

packaging size	135mm / 70,5mm / 24,5mm
