## 4K SIGNAL SWITCH FOR HDMI HIGHWAY SWITCH

**MSRP (19%): 79.99**

With our Highway Switch, you can easily switch from 3 input sources (e.g. receiver, BluRay player & games console) via remote control and output to your output device (e.g. TV). Playing a game after the soccer is child's play. The HDMI® 3:1 switch with support for up to 4k (2160p / Ultra HD) guarantees reliable and loss-free signal transmission thanks to its high-quality components and is easy to operate from the sofa thanks to its remote control in combination with control LEDs. Among other things, the Highway Switch consists of an aluminum housing, which ensures excellent shielding against interfering signals. In addition, the 24ct gold-plated HDMI® contacts offer exceptionally high conductivity and contact reliability.
