HIGH-SPEED HDMI® CABLE WITH ETHERNET

HIGHSPEED SHAPE SL

The Highspeed Shape SL offers all of the characteristics and features of the high quality Highspeed SL HDMI cable, together with the additional benefits of flat, angled connectors. HDMI ports are often positioned very closely together, particularly on TV sets, which can cause problems when connecting conventional cables; the Highspeed Shape SL provides a solution to this issue. Digital signals are transmitted easily and in excellent quality thanks to its triple shielding element and oxygen-free OFC inner conductor.

Furthermore, the cable is also equipped with two different HDMI connectors, which are angled by 40°. This makes the cable particularly suitable for side HDMI ports on LCD TVs. Multiple connectors can even be positioned one above the other in a „piggyback“ configuration.

x.v.Color

Colour	Anthracite
Inner conductor material	OFC - oxygen-free copper
cable geometry	Round
Shielding	triple shielding
Shielding construction	1 x aluminium foil + 1 x copper braiding
Audio format	DTS-HD Master Audio, DTS:X, DTS, DTS HD, Dolby True HD, Dolby Atmos, Dolby Digital Plus
Transmission rate	18 Gbps
Screen resolution	4K UHD 50/60 Hz
HDMI Features	x.v.Color – Additional Color Space , 3D TV, High-Speed-HDMI®-cable, 30/36/48-bit Deep Color, 32 digital audio channels, Dolby Vision, ARC - Audio Return Channel, 3D TV at 4 K resolution, 18 GBit/s data rate, HDR - High Dynamic Range Image, CEC 2.0, HEC - HDMI® with Ethernet channel
Features	30 years warranty, Right/left plug, 40° angle plug, 24kt gold plated contacts , 21:9 cinema image format
