DIGITAL OPTICAL AUDIO SPLITTER

OPTO SPLITTER

MSRP (19%): 99.00

Nearly loss-free and stable signal transmission has been the highest priority at the cable and accessories specialist Oehlbach for over 40 years. Irrespective of the application profile, the company stands for a high level of operating convenience and simple commissioning. The Pro In Opto Splitter combines these attributes with flexible use, a variety of installation options and low power consumption. The digital optical audio splitter has one input and four outputs. The transmission is almost loss-free with a very low attenuation. Signal transport is possible with resolutions up to 96 kHz and 24-bit, including 5.1 Dolby Digital and DTS.
