

19-PIN DATA INSTALLATION CABLE

PROIN MULTILINE

Preassembled digital MultiLine installation cable with 19 separated and shielded inner conductors! The all-purpose cable with multiple shielding possesses a 19-pin plug with metric thread at both cable ends. This cable may be turned into a fully-fledged high-speed HDMI cable with Ethernet channel by screwing the ProIn HDMI adapter on to it. The small 19-PIN connector head, which measures just 16 mm in diameter, enables simple routing of the cable in narrow conduits (as per EN 32). The 19-PIN installation sleeve allows the cable to be easily and conveniently pulled into empty conduits
