HIGH SPEED HDMI CABLE WITH ETHERNET

REAL MATRIX MK III

High-speed HDMI® cable with sophisticated technology. The additional data channel (Ethernet channel) allows Internet-enabled AV components, e.g. Blu-ray players and AV receivers, to be connected without the need for additional network cables. The high quality inner conductor, which is manufactured from silver-plated copper (SPC) and features fourfold shielding as well as 24-carat gold-plated plug contacts, guarantees the transmission of absolutely stable and interference-free signals – particularly where critical digital signals are concerned. In terms of material and aesthetics this 4-star cable comes complete with a durable fabric sheathing and solid metal connectors.

x.v.Color

Connector material	solid metal plug
