INDOOR ANTENNA FOR DVB-T2 SCOPE FLAT

Excellent reception of digital terrestrial television DVB-T2 always requires a suitable antenna: one like the Oehlbach Scope Flat. In this DVB-T2 indoor antenna, newly developed, particularly low-noise reception technology ensures picture and sound quality that can be seen and heard. You can place this active antenna completely flat on a cupboard and it will not be noticed at all. Or you can hang the elegant design - available in black or white - on the next wall like a picture frame. A 1.8 metre antenna cable with a 24 carat gold-plated antenna plug gives you plenty of room to find the perfect spot for this antenna.
