BALANCED NF AUDIO XLR CABLE

SERIES 1 X

1 PAIR OF AUDIO CABLES

Particularly high-quality analogue audio cable with symmetrical design and effective triple shielding for cabling hi-fi and home-cinema systems! The silver-plated inner conductor made from oxygen-free copper (SPC = silver-plated copper) means that this Oehlbach cable delivers particularly good spatiality and outstanding dynamics. Perfect contact reliability and a pleasant handling are guaranteed with the 24-carat gold-plated contacts. The cable may be used for all purposes and is absolutely resistant to all sheath currents thanks to its extremely flexible outer sheath and metal plug. There is nothing to stand in the way of the robust deployment of these cables as they also come preassembled with locking XLR plugs.
