

ADAPTER DIPLAYPORT (M) TO HDMI (F)

TRANSDATA A1

MSRP (19%): 39.99

This multimedia adapter is used for the transmission of digital audio and video signals and is equipped with a HDMI® socket on one side and a DisplayPort plug on the other. The adapter is normally used in combination with a HDMI® cable to connect PCs and notebooks to TFT monitors or flat-screen TVs equipped with the corresponding interfaces.
