SIGNAL DIRECTION

## ANTENNA CABLE TRANSMISSION ULTRA

Digital high-end antenna cable for the transmission of high-resolution audio and image data. External interference stands no chance thanks to the use of a very compact sheath current filter. This five-star antenna cable's inner conductor is manufactured from highly pure, oxygen-free HPOCC<sup>®</sup> copper, its fivefold shielding means that its signal transmission is almost perfect and loss-free. The shielded full-metal plug helps make the transmission of highly sensitive HDTV signals extremely stable – particularly at the critical material transitions.

cable material	fabric sheath
Connector material	High-quality fabric sheathing
Bending radius	ca. 30 mm
Inner conductor material	HPOCC <sup>®</sup> – mono-crystalline oxygen-free copper inner conductor
cable geometry	Round
Shielding effectiveness	125 dB dB
Shielding	Five times shielding
Features	Reliable contact, 24kt gold plated contacts , 30 years warranty, German Technology
Characteristic impedance	Eliminates high-frequency irradiation

item no.	Length	Color	EAN	MSRP (19%)
