HIGH QUALITY SPEAKER CABLE

TWIN MIX TWO M

 2X 6.0 MM²
MSRP (19%): 38.99

High-quality and particularly flexible stereo loudspeaker cable for connecting amplifiers and power amplifiers to loudspeaker boxes. This loudspeaker cable is suitable for amplifier performances of up to around 350 watts of power per amplifier channel. The cable is manufactured from three stranded strings of oxygen-free copper (OFC) and three stranded strings of silver-plated oxygen-free copper (SPFC). The proportion of silver-plated conductors means that this special design considerably improves transmission properties, particularly in the treble/mid-tone range! This Oehlbach cable's outer sheath is made from a tough, transparent and highly flexible mix of plastics for very supple and flexible laying.
