

USB 3.1 CABLE TYPE C TO TYPE C

USB PRIMUS CC

Once you have experienced the many advantages of a USB-C connection, such as the high speed of data transfers, the strong wattage of the power supply or the versatility of such connections, you will not want to do without it. Oehlbach has now once again paid special tribute to USB-C and has developed a state-of-the-art cable with the USB Primus CC, which takes the standard to the limit. It delivers data speeds of 10 GBit/s and in addition PowerDelivery with 40 Watt power. The Primus CC is based on maximum quality of all components for loss-free transmissions through and through. This starts with the oxygen-free HPOCC inner conductor, continues with a triple shielding and a durable flexible fabric sheath and ends with the 24kt gold-plated full metal connections with 100% contact reliability - and thanks to the clever connection base, this is fully maintained even with smartphones in the protective case.

cable material	TPE, fabric sheath
Connector material	solid metal plug
Bending radius	40 mm
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
cable geometry	Round
Shielding	triple shielding
Shielding construction	2 x aluminium foil + 1 x copper braiding
Transmission rate	10 Gbps
Features	Reliable contact, loss-free signal transmission, 24kt gold plated contacts , 30 years warranty, PVC Free, Power Delivery 40 W
Cable diameter	5 mm

item no.	Length	Color	EAN	MSRP (19%)
9530	0.50 m	Black/Gold	4003635095300	59.99 €
9531	1 m	Black/Gold	4003635095317	69.99 €
9532	2 m	Black/Gold	4003635095324	89.00 €
9533	3 m	Black/Gold	4003635095331	129.00 €
