

VGA CABLE, HALOGEN-FREE VGA MP

The analogue alternative to HDMI/DVI cables for the transmission of image signals from PCs to projectors and screens. The silver-plated inner conductors made from oxygen-free copper and the high-quality braided shielding that is also made from oxygen-free copper, but which is tin-plated, allow data to be transmitted even over very long distances (max. 40 m) without the need for additional amplification.

cable material	incl. power supply, plastic
Bending radius	66 mm mm
Colour	Blue
Inner conductor material	OFC - oxygen-free copper , Foamed PE
cable geometry	Round
Shielding	triple shielding
Shielding construction	1 x aluminium foil + 2 x copper braiding
AWG	28 AWG
Features	30 years warranty
