SIGNAL DIRECTION

## SATELLITE CABLE

### XXL TRANSMISSION ULTRA S

Digital high-end satellite cable for the transmission of high-resolution audio and image data. External interference stands no chance thanks to the use of a very compact sheath current filter. The inner conductor used in this five-star satellite cable is made from highly pure oxygen-free HPOCC® copper; its outstanding fivefold shielding means that its signal transmission is almost perfect and loss-free. The shielded full-metal plug helps make the transmission of highly sensitive HDTV signals extremely stable – particularly at the critical material transitions.

cable material	fabric sheath
Connector material	High-quality fabric sheathing
Bending radius	ca. 30 mm
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
cable geometry	Round
Shielding effectiveness	125 dB dB
Shielding	Five times shielding
Features	24kt gold plated contacts , Reliable contact, 30 years warranty
Characteristic impedance	Eliminates high-frequency irradiation

item no.	Length	Color	EAN	MSRP (19%)
22626	0.75 m	Black/Grey	4003635226261	79.00 €
